

Machinists Wanted to Help Support our Warfighters

- ★ DMG MORI, Precision AS9100
- Mazak & Haas Machining Certified
- ★ Weapon Work where you Manufacturing
- Components & Play Excellence
- Pumping Systems ★ Teamwork ★ Modern Facility

McNally Industries, a Defense and Aerospace Contractor in Grantsburg Wisconsin, is looking for both manual and CNC machinists with two or more years machining experience. As a McNally Machinist, you will need to use standard measurement equipment to inspect complex parts. You must have the ability to read a blueprint and interpret geometric tolerances. The ability to perform set-ups is preferred, but not mandatory. An associate's degree in a machine tool field is a plus. The majority of the components and systems produced by McNally are for the Department of Defense. Our requirements are stringent and critical because the end user's lives depend on it.

McNally Industries offers competitive wages and a full benefits package - including health, dental, life, short term disability insurance and a 401K plan. Please send your resume with cover letter to: hr@mcnally-industries.com or HR Dept., McNally Industries, LLC, 340 W. Benson Ave., Grantsburg, WI 54840, or call 715-463-8369 for more information. EOE
