

**Manufacturing Engineer Wanted to Help Support our Warfighters**

- ★ DMG MORI, Precision AS9100
- Mazak & Haas Machining Certified
- ★ Weapon Work where you Manufacturing
- Components & Play Excellence
- Pumping Systems ★ Teamwork ★ Modern Facility

McNally Industries, a Defense and Aerospace contractor specializing in precision machining, is seeking to add another experienced Manufacturing Engineer to our staff. We are located in the Northwest Wisconsin town of Grantsburg within an hour's drive of the Twin City metro area. Our requirements are stringent and critical because the end users' lives depend on it.

A Bachelor of Science degree in Manufacturing Engineering or equivalent experience is required. Your responsibilities would include work method development, fixture design, process qualification support and continuous improvement projects. CNC programming in Mastercam (or similar CAM software) required, preferably in a shop environment (not just classroom).

McNally Industries offers competitive wages and a full benefits package - including health, dental, life, short term disability insurance and a 401K plan. Please send your resume with cover letter to: [hr@mcnally-industries.com](mailto:hr@mcnally-industries.com) or HR Dept., McNally Industries, LLC, 340 W. Benson Ave., Grantsburg, WI 54840, or call 715-463-8369 for more information. EOE
